Community Impact Statement

Reference Horse Advisory Task Force (CF 07-4097)

Foothill Trails District Neighborhood Council supports the formation of a Horse Advisory Task Force.

Equestrian communities sorely need an avenue of communication with City staff that enables representatives to explain area needs for optimum health, safety, infrastructure and continuing viability of the land for maintaining large animals, while working within the LAMC.

The Horse Advisory Task Force working in cooperation with an Equestrian Advisory Committee signals hope that, finally, a forum will come to exist for mutual learning and understanding.

Thank you,

Foothill Trails District Neighborhood Council
Bart Paul, President
